Management's Discussion and Analysis

Years ended September 30, 2021 and 2020

Mission and Organizational Structure

The District of Columbia Workmen's Compensation Act of 1928 (DCCA) provides medical benefits, compensation for lost wages, and rehabilitation services for job-related injuries, diseases or death of certain private-sector workers in the District of Columbia. The DCCA Special Fund (the Fund) also extends benefits to dependents if any injury resulted in the employee's death. Generally, benefits are paid directly from private funds by an authorized self-insured employer or through an authorized insurance carrier (hereinafter collectively referred to as carriers). Cases meeting the requirements of the Longshore and Harbor Workers' Compensation Act (LHWCA) and extended to DCCA are paid from the Fund, which is financed primarily through carrier contributions (assessments). In fiscal years (FY) 2021 and 2020, respectively, 328 and 337 injured workers and dependents received compensation benefits from the Fund.

The reporting entity is the Fund. Organizationally, the Fund is administered by the Department of Labor (DOL), Office of Workers' Compensation Programs (OWCP), Division of Federal Employees', Longshore and Harbor Workers' Compensation (DFELHWC). DFELHWC has direct responsibility for administration of the Fund.

Effective July 26, 1982, the District of Columbia Workmen's Compensation Act of 1928 became responsible for the administration and operation of a separate special fund to cover post July 26, 1982 injury cases.

Additionally, DCCA incorporates Section 10(h) of LHWCA, which provides annual wage increase compensation (cost of living adjustments) for pre-1972 compensation cases entitled due to total permanent disability or death. Fifty percent of this annual wage increase compensation is paid by the Fund through the annual assessments, and fifty percent is paid by the separate Federal Employees Compensation Act Special Benefit Fund.

Administrative services for operating the Fund are provided by OWCP on behalf of the Fund. Funding for these costs is primarily provided by federal appropriations to OWCP's Salaries and Expense account, which are not part of the Fund. The financial accounting functions and reporting duties are performed by the Division of Central Accounting Operations (DCAO) and the Division of Financial Reporting (DFR), respectively.

**DISTRICT OF COLUMBIA WORKMEN'S
COMPENSATION ACT SPECIAL FUND**

Management's Discussion and Analysis
Years ended September 30, 2021 and 2020

Financial Highlights

The majority of the Fund's revenue is generated through annual recurring assessments paid by self-insured employers and insurance carriers. Assessment revenue totaled \$5,436,487 in FY 2021 and \$5,895,414 in FY 2020. Appropriations and revenue were lower in FY 2021 than in FY 2020. The decrease in revenue was caused by a decrease in the amount of assessment billed from FY 2020 to FY 2021.

The Fund's FY 2021 costs of \$5,829,079 remained relatively stable compared to the FY 2020 costs of \$6,005,768. The decrease in net cost reflects the reduction of benefit payments over time due to no new claimants being admitted to the program and natural attrition of the current population. Proceeds of the Fund are used for payments under: Section 8(f) for second injury claims; Section 10(h) for initial and subsequent annual adjustments in compensation for permanent total disability or related death from injuries which occurred prior to the effective date of the 1972 LHWCA amendments; and Section 18(b) for compensation to injured workers in cases of employer default. Budgetary obligations totaled \$5,812,141 in FY 2021 and \$5,986,878 in FY 2020. The decrease in budgetary obligations reflects the reduction of benefit payments over time due to no new claimants being admitted to the program and natural attrition of the current population totaled.

Performance Goals and Results

DFELHWC's administration of the Fund supports DOL's Strategic Goal 3 – *Administer Strong Workers' Compensation and Benefits Programs*. This goal broadly promotes the economic security of workers and families. In particular, DFELHWC's administration of the Fund supports Strategic Objective 3.1, *Provide workers' compensation benefits for workers who are injured or become ill on the job*. DOL plays a large role in ensuring that worker benefits are protected and that employers administer benefit programs in an appropriate way. DFELHWC assists in meeting this strategic goal by ensuring sufficient funds are assessed to fund the benefit payments, and payments to the beneficiaries are made promptly. In FY 2021, the assessments were sufficient to cover the costs due to no new claimants being admitted to the program. Performance goals targeting the timeliness of initial claims processing and benefit delivery outcomes were achieved.

Internal Controls

DFELHWC's Branch of Financial Management, Insurance and Assessment is composed of four employees and one supervisor. It guards against unethical behavior by segregated duties and assigning roles to each function. Much of the oversight, evaluation, monitoring, control

**DISTRICT OF COLUMBIA WORKMEN'S
COMPENSATION ACT SPECIAL FUND**

Management's Discussion and Analysis

Years ended September 30, 2021 and 2020

and supervisory activity is informal and face-to-face.

Management communicates all procedural, policy, and operating goals to staff with a written procedure manual, e-mails, and frequent individual communications regarding changes, problems and issues.

Statutes provide the formal standards where these are applicable, such as privacy statutes, cash handling procedures, and conflict of interest regulations. All codes, statutes, and regulations governing the conduct of federal employees apply to all DFELHWC employees.

For cases paid by the Fund, a District Director or Administrative Law Judge issues a formal Compensation Order to identify the payee and set the amount. Five employees review each new case before making the payment to ensure accuracy.

Known Risks and Uncertainties

The Fund makes assessments on authorized insurers and self-insurers one year at a time for current expenses; there is no reserve for future fund obligations. In keeping with the requirement of Section 44 of LHWCA, obligations are paid as they are incurred. Assessments are based on compensation and medical benefits paid in the prior calendar year. The District of Columbia Workmen's Compensation Act of 1928 has been repealed, and the Fund only assesses based on payments for cases that arose prior to July 26, 1982. The annual fund assessment is assessed against a shrinking base of industry payments. Although there are approximately 100 authorized insurance carriers and self-insured employers, benefit payments are concentrated among relatively few. For example, the top ten carriers and self-insurers alone pay 87 percent of the total industry payments for indemnity, excluding fund payments. If a major carrier or self-insurer fails, the remainder would face substantially increased assessments.

There is no provision for reserving extra funds for future obligations as the Fund is not liable for payments authorized by the LHWCA that exceed the money or property deposited in or belonging to the Fund. Thus, the Fund's cash requirements are reviewed twice a year through the assessment process in order to meet current expenses. If one or more of the largest payers became insolvent and was unable to pay their assessment obligations, temporary collection issues would result, necessitating special, unscheduled assessments or other actions to ensure the Fund has sufficient liquid resources to pay claims liabilities as they come due.

COMPENSATION ACT SPECIAL FUND**

Management's Discussion and Analysis
Years ended September 30, 2021 and 2020

Limitations of the Financial Statements

The following are limitations of the financial statements:

- The financial statements have been prepared to report the financial position and results of operations of the Fund, pursuant to the requirements of the Longshore and Harbor Workers' Compensation Act (Title 33, United States Code (33 U.S.C), Section 944(j)).
- While the statements have been prepared from the books and records of the Fund in accordance with U.S. Generally Accepted Accounting Principles for U.S. Government entities and the formats prescribed by the Office of Management and Budget (OMB), the statements are different from the financial reports used to monitor and control budgetary resources which are prepared from the same books and records.
- The statements should be read with the realization that they are for a component of the U.S. Government, a sovereign entity, that liabilities cannot be liquidated without the enactment of an appropriation, and that the payment of all liabilities other than for contracts can be abrogated by the sovereign entity.

Independent Auditors' Report

Mr. Christopher Godfrey, Director
Office of Workers' Compensation Programs, U.S. Department of Labor:

Report on the Financial Statements

We have audited the accompanying financial statements of the District of Columbia Workmen's Compensation Act Special Fund (Fund), a fiduciary fund of the U.S. Department of Labor (DOL), which comprise the balance sheets as of September 30, 2021 and 2020, and the related statements of net cost, changes in net position, and budgetary resources for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, in accordance with the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the U.S. Department of Labor's District of Columbia Workmen's Compensation Act Special Fund as of September 30, 2021 and 2020, and its net costs, changes in net position, and budgetary resources for the years then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the information in the Management's Discussion and Analysis section be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Federal Accounting Standards Advisory Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements as of and for the year ended September 30, 2021, we considered the Fund's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, we do not express an opinion on the effectiveness of the Fund's internal control. We did not test all internal controls relevant to operating objectives as broadly defined by the *Federal Managers' Financial Integrity Act of 1982*.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable

possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying Exhibit 1, that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Fund's financial statements as of and for the year ended September 30, 2021 are free from material misstatement, we performed tests of its compliance with certain provisions of laws and regulations, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Fund's Response to Findings

The Fund's response to the findings identified in our audit is described in the accompanying Exhibit 1. The Fund's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of the Other Reporting Required by Government Auditing Standards

The purpose of the communication described in the Other Reporting Required by *Government Auditing Standards* section is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Fund's internal control or compliance. Accordingly, this communication is not suitable for any other purpose.

KPMG LLP

Washington, D.C.
February 22, 2023

1. Improvements Needed in the Claims Examiners' Review of District of Columbia Workmen's Compensation Act Special Fund Claims

The Office of Workers' Compensation Program (OWCP) – Division of Federal Employees', Longshore and Harbor Workers' Compensation (DFELHWC) management's control over the claims examiners' reviews of the LS-200 and LS-267 forms for continuing eligibility was not operating effectively. Specifically, the claims examiners' reviews were not performed in accordance with the DFELHWC Procedure Manual (Manual) for 5 of 39 claimants selected as follows:

- For 1 claim, the claimant did not provide the Claimant's Statement (Form LS-267), and the claims examiner did not complete timely follow-up procedures or suspend benefits in accordance with Section 6-0300(5)(2) of the Manual.
- For 4 claims, each claimant did not provide the Report of Earnings (Form LS-200) or the Claimant's Statement (Form LS-267) upon the initial request, and the claims examiner did not complete timely follow-up procedures or suspend benefits in accordance with Section 6-0300(5)(2) of the Manual.

The exceptions noted above were due to insufficient monitoring controls in place to validate the claims examiners' reviews of claims were timely and properly performed in accordance with the Manual.

Ineffective controls over the review of continuing eligibility increases the risk of improper payments or errors in benefit payments made to claimants.

The following criteria were considered in the determination and evaluation of the findings noted above:

- Section 6-0300(5) of the Manual provides the requirement for the claims examiner to investigate and take action to obtain a signed LS-200 or LS-267 form before pursuing forfeiture. This includes taking follow up action or suspending compensation until the claimant is located.
- Section 6-0300(5)(2) of the Manual provides the requirement for the claims examiner to send another LS-200 or LS-267 form for completion with an indication that failure to submit the form in a timely manner will result in temporary suspension of benefits and review the case again within 60 days to determine the next appropriate action.
- The *GAO Standards for Internal Control in the Federal Government*, Section 16 provides the requirements related to management's monitoring of the internal control system.

Recommendations:

We recommend that the Director of Division of Federal Employees', Longshore and Harbor Workers' Compensation:

- 1) Perform a review of the FY 2021 outstanding claimant forms and perform any follow-up procedures as deemed necessary, and
- 2) Continue implementation of monitoring controls to validate the claims examiners are promptly performing follow-up procedures when the LS-200 and/or LS-267 forms are not timely provided by claimants.

Management's Response

The Director of Division of Federal Employees', Longshore and Harbor Workers' Compensation (DFELHWC) agrees to follow-up with the cases identified for fiscal year 2021. In fact, regarding the above "CONDITION: bullet point two" – the four claims identified have already been resolved. The remaining item identified during the audit will be addressed as soon as practicable. DFELHWC has developed and implemented monitoring controls to assure claim examiners are promptly following up with beneficiaries when the LS-200 and/or LS-267 forms are not provided or are inaccurate.

Auditors' Response

We will conduct follow-up procedures during the performance of the FY 2022 audit to determine whether corrective actions have been developed and implemented.

**DISTRICT OF COLUMBIA WORKMEN'S
COMPENSATION ACT SPECIAL FUND**

Notes to the Financial Statements

Years ended September 30, 2021 and 2020

(1) Summary of Significant Accounting Policies

The principal accounting policies which have been followed in preparing the accompanying financial statements for the District of Columbia Workmen's Compensation Act (DCCA) Special Fund (Fund) are set forth below.

(a) Reporting Entity

The Fund was established by Section 44 (33 U.S.C. 944) when the DCCA was enacted in 1928. It was originally funded by Congressional Appropriation and is administered by DOL, OWCP, and DFELHWC. DFELHWC has direct responsibility for administration of the Fund. The Fund offers compensation, and in certain cases, medical care payments to employees who are employed in the District of Columbia for work related injuries or death incurred on or before July 26, 1982. Effective July 26, 1982, the DCCA was amended whereby the Mayor of the District of Columbia became responsible for the administration and operation of a separate special fund to cover post July 26, 1982 cases. These financial statements do not include the special fund administered by the Mayor of the District of Columbia for cases occurring after July 26, 1982.

Additionally, LHWCA Section 10(h) provides annual wage increase compensation (cost of living adjustments) for pre-1972 compensation cases entitled due to total permanent disability or death. Fifty percent of this annual wage increase is paid by the Fund through annual assessment. The remaining fifty percent is paid by the separate Federal Employees' Compensation Act's Special Benefit Fund through federal appropriations.

(b) Basis of Accounting and Presentation

These financial statements present the financial position, net cost of operations, changes in net position and budgetary resources, in accordance with U.S. generally accepted accounting principles and the form and content requirements of OMB Circular A-136, *Financial Reporting Requirements*. These financial statements have been prepared from the books and records of the Fund. These financial statements are not intended to present, and do not present, the full cost of the DCCA Program (Program). In addition to the fund costs presented in these statements, the full cost of the Program would include certain direct costs of OWCP in the form of salaries and expenses for administration of the Program and allocated costs of OWCP and other DOL agencies incurred in support of the Program. The full cost of the Program is included in the DOL consolidated financial statements and related notes. The

**DISTRICT OF COLUMBIA WORKMEN'S
COMPENSATION ACT SPECIAL FUND**

Notes to the Financial Statements

Years ended September 30, 2021 and 2020

Fund is considered a fiduciary activity of DOL and is properly disclosed and reported in the consolidated financial statements of DOL as a fiduciary fund. Accordingly, the fiduciary assets and liabilities are not recognized on the consolidated balance sheet. The Fund is described in Note 1 under Reporting Entity and in Note 22 - Fiduciary Activity, of DOL's consolidated financial statements and related notes.

U.S. generally accepted accounting principles encompass both accrual and budgetary transactions. Under accrual accounting, revenues are recognized when earned, and expenses are recognized when a liability is incurred. Budgetary accounting facilitates compliance with legal constraints on, and controls over, the use of Federal funds. These financial statements are different from the financial reports, also prepared for the Fund pursuant to OMB directives, used to monitor the Fund's use of budgetary resources.

(c) Fund Balance with Treasury

The Fund's cash receipts and disbursements are processed by U.S. Department of the Treasury (Treasury). Funds with the Treasury represent obligated and unobligated balances available to pay current liabilities and finance authorized purchase commitments.

(d) Investments in Treasury Securities, Net

Investments in U.S. Government securities are reported at cost, net of unamortized premiums or discounts, if any, which approximate market value. Premiums or discounts are amortized on a straight-line basis, which approximates the effective interest method. The Fund's intent is to hold one-day investments to maturity. No provision is made for unrealized gains or losses on these securities because they are held to maturity. A portion of these investments is available for payment of compensation and medical benefits to covered employees of the defaulted insurance carriers or self-insured employers (hereinafter collectively referred to as carriers).

(e) Accounts Receivable, Net

The amounts due as receivables are stated net of an allowance for uncollectible accounts. The allowance is estimated based on past experience in the collection of the receivables and an analysis of the outstanding balances. Accounts receivable comprise of a carrier deposit due from the LHWCA Special Fund, assessments

**DISTRICT OF COLUMBIA WORKMEN'S
COMPENSATION ACT SPECIAL FUND**

Notes to the Financial Statements
Years ended September 30, 2021 and 2020

receivable and the fund's benefit overpayments to individuals primarily from awarded compensation orders and corrections of payment computations.

(f) Benefits Due and Payable

The Fund provides compensation and medical benefits for work-related injuries to employees who are employed in the District of Columbia that were incurred on or before July 26, 1982. The Fund recognizes a liability for disability benefits payable to the extent of unpaid benefits applicable to the current period. Ultimate responsibility for the payment of such claims rests with the employer organizations.

(g) Other Liabilities

Other liabilities comprise primarily of assessment overpayments by insurance carriers or self-insured employers which are to be refunded at the carriers request or applied to reduce future assessments. Also included in other liabilities are amounts received by the Fund from defaulted carriers which are being held as security by authority of Section 32 of LHWCA. These funds and investments are available for compensation and medical benefits to covered employees of the defaulted carriers. In accordance with 20 CFR 703, once the Fund, within its discretion, determines amounts seized from a carrier are no longer needed, it must return the funds to the insolvent carrier's estate. As a result, the Fund reports these amounts as a liability until the related benefits are paid. Management estimates that these funds and investments held will be sufficient to cover the future benefits associated with the covered employees.

(h) Deferred Revenue

Deferred revenue represents the unearned assessment revenue as of September 30. The annual assessments cover a calendar year, and accordingly, the portion extending beyond September 30 has been deferred.

(i) Non-exchange Revenue

Non-exchange revenues arise from the federal government's power to demand payments from and receive donations from the public.

The Fund's primary source of revenue is annual assessments levied on insurance carriers and self-insured employers. Assessments are recognized as non-exchange revenue when due. In the case of amounts received by the Fund from defaulted carriers which are being held as security by authority of Section 32 of LHWCA,

**DISTRICT OF COLUMBIA WORKMEN'S
 COMPENSATION ACT SPECIAL FUND**

Notes to the Financial Statements
 Years ended September 30, 2021 and 2020

revenue is recognized at the time that benefits are paid. The Fund receives interest on fund investments and on Federal funds in the possession of non-federal entities. The Fund also receives revenue from fines and penalties assessed in accordance with various sections of LHWCA.

(j) Other Conforming Changes

In accordance with the requirements of OMB Circular A-136, in FY 2021 DCCA made other conforming changes to the financial statements and notes as described below:

The Balance Sheet has been updated to be consistent with Note 22 of DOL's FY 2021 Agency Financial Report (AFR).

The Note 2 name and the line label have been updated to Fund Balance with Treasury to conform with Note 22 of DOL's FY 2021 AFR.

The Note 7 name has been changed to Reconciliation of Net Cost to Net Outlays.

(2) Fund Balance with Treasury

Fund Balance with Treasury at September 30, 2021 consisted of the following:

| (In Dollars) | Obligated Balance Not Yet Disbursed | Entity Assets | | Total Entity Assets | Non-entity Assets | Total |
|----------------------------|---|-------------------------------------|---------------------------------------|------------------------|----------------------|-------------|
| | | Unobligated Balance Available | Unobligated Balance Unavailable | | | |
| Fund Balance with Treasury | \$ 1,999,594 | - | \$ - | \$ 1,999,594 | \$ - | \$1,999,594 |

Fund Balance with Treasury at September 30, 2020 consisted of the following

| (In Dollars) | Obligated Balance Not Yet Disbursed | Entity Assets | | Total Entity Assets | Non-entity Assets | Total |
|----------------------------|---|-------------------------------------|---------------------------------------|------------------------|----------------------|-------------|
| | | Unobligated Balance Available | Unobligated Balance Unavailable | | | |
| Fund Balance with Treasury | \$ 1,880,813 | \$ - | \$ - | \$ 1,880,813 | \$ - | \$1,880,813 |

Fund Balance with Treasury at September 30, 2021 and 2020 consisted of cash deposits of \$1,999,594 and \$1,880,813, respectively. These cash deposits at September 30, 2021 and 2020 included \$31 and \$20, respectively, which are being held as security by authority of Section 32 of LHWCA. These funds relate to the default of self-insured

employers and are available for payment of compensation and medical benefits to covered employees of the defaulted companies.

(3) Investments in Treasury Securities, Net

Investments in Treasury Securities, Net at September 30, 2021 and 2020 consisted of the following:

| | | 2021 | | | |
|-------------------------------|-----------|-----------------------|-------------------------------|----------------------|-------------------------|
| (In Dollars) | | Face Value | Premium (Discount) | Net Value | Market Value |
| Intragovernmental securities: | | | | | |
| Non-marketable: | | | | | |
| | Par value | \$ 900,000 | \$ - | \$ 900,000 | \$ 900,000 |
| | | 2020 | | | |
| (In Dollars) | | Face Value | Premium (Discount) | Net Value | Market Value |
| Intragovernmental securities: | | | | | |
| Non-marketable: | | | | | |
| | Par value | \$ 2,000,000 | \$ - | \$ 2,000,000 | \$ 2,000,000 |

A portion of the investments are assets being held as security by authority of Section 32 of the LHWCA for compensation and medical benefits to covered employees of defaulted carriers; these investments were \$62,200 at September 30, 2021 and 2020. Investments at September 30, 2021 and 2020 consist of overnight securities. Investments at September 30, 2021 and 2020 bear an interest rate of 0.07 and 0.09 percent, respectively. Interest rates on securities bought and sold during FYs 2021 and 2020 ranged from 0 and 0.10 percent and between 0 and 1.91 percent, respectively.

(4) Accounts Receivable, Net

Accounts receivable, net at September 30, 2021 and 2020 consisted of the following:

| (In Dollars) | 2021 | | |
|------------------------|------------------------------|---------------------|----------------------------|
| | Gross Receivables | Allowance | Net Receivables |
| Entity assets: | | | |
| Benefit overpayments | \$ 247,749 | \$ (215,061) | \$ 32,688 |
| Assessments receivable | 989,720 | | 989,720 |
| | <u>\$1,237,469</u> | <u>\$ (215,061)</u> | <u>\$1,022,408</u> |

| (In Dollars) | 2020 | | |
|------------------------|------------------------------|---------------------|----------------------------|
| | Gross Receivables | Allowance | Net Receivables |
| Entity assets: | | | |
| Benefit overpayments | \$ 371,102 | \$ (320,204) | \$ 50,898 |
| Assessments receivable | 509,342 | (1,273) | 508,069 |
| | <u>\$ 880,444</u> | <u>\$ (321,477)</u> | <u>\$ 558,967</u> |

Assessments receivable represent the unpaid annual assessments. Accounts receivable from benefit overpayments to claimants arise primarily from amended compensation orders and corrections of payment computations. These receivables are primarily recovered by partial withholding of benefit payments, to the extent possible.

(5) Other Liabilities

Other liabilities at September 30, 2021 and 2020 consisted of the following:

| <u>(In Dollars)</u> | <u>2021</u> | <u>2020</u> |
|--------------------------|------------------|------------------|
| Other liabilities: | | |
| Held in DCCA Investments | \$ 62,200 | \$ 62,200 |
| Held in cash | 31 | 20 |
| Total other liabilities | <u>\$ 62,231</u> | <u>\$ 62,220</u> |

Defaulted employer liability relates to the funds and investments held by the Fund which are being held as security by authority of Section 32 of LHWCA. These funds and investments are available for compensation and medical benefits to covered employees of the defaulted companies. Management estimates that these funds and investments held will be sufficient to cover the future benefits associated with the covered employees. There are no current portions of the defaulted carrier liability for FY 2021 and FY 2020.

(7) Reconciliation of Net Cost to Net Outlays

Budgetary and financial accounting information differ. Budgetary accounting is used for planning and control purposes and relates to both the receipt and use of cash, as well as reporting the federal deficit. Financial accounting is intended to provide a picture of the government's financial operations and financial position so it presents information on an accrual basis. The accrual basis includes information about costs arising from the consumption of assets and the incurrence of liabilities. The reconciliation of net outlays, presented on a budgetary basis, and net cost, presented on an accrual basis, provides an explanation of the relationship between budgetary and financial accounting information. The reconciliation serves not only to identify costs paid for in the past and those that will be paid in the future, but also to assure integrity between budgetary and financial accounting. The analysis below illustrates this reconciliation by listing the key differences between net cost and net outlays.
